MADE IN ITALY

Components:

Upper: upper made of water-repellent, soft and breathable grain calf leather.

Lining: made of grain leather, soft and breathable in the back, front lined with hydrophobic material with Sanitized, bacteriostatic and fungistatic treatment to prevent the formation of unpleasant odors.

Insole: Anti-static fiber insole with high sweat absorption and de-absorption power.

Sole: Extra-light sole made of EVA, slip-resistant, wear-resistant, oil-resistant, antistatic, extremely light and flexible, allows prolonged use over time without fatiguing the user due to high cushioning properties. This sole is made with a special compound that provides excellent abrasion resistance, resulting in a long lasting shoe.

Slip resistance according to UNI EN ISO 20347:2022 requirement SR.

Energy absorption in the heel area greater than 20 joules UNI EN ISO 20344:2022

Removable anatomical footbed: PU/E-TPU base coupled with breathable fabric, absorbs impact and provides energy return reducing workday fatigue.

AGO processing: method of joining the upper and lining and insole to the sole using non-toxic, high-performance adhesives.
