Item nr. **46891**

Available sizes: **from 36 to 48**

CE Mark: 
UNI EX ISO 23047:2024 O3L HRO FO SR

MADE IN ITALY

Item description: Unisex ankle boot featuring a fastening system with 9 pairs of metal eyelets and sturdy laces, including a central zipper for quick removal.

Packaging, storage, maintenance and life: it is essential to keep the product clean at all times and treat it regularly with non-aggressive products. Store the footwear in a dry and clean condition in an appropriate location at room temperature, away from direct heat sources. Each pair of footwear is packed in an individual cardboard box, including an instruction manual and an information sheet regarding its protective features.

Components:

Upper: Water-repellent, soft, and breathable full-grain bovine leather; lateral inserts made of black fabric, highly tear-resistant, wear-resistant, and waterproof.

Lining: Non-woven fabric (TNT), tear-resistant, wear-resistant, and breathable.

Insole: Non-metallic anti-perforation plate; antistatic fiber with high sweat absorption and de-absorption capacity.

Toe reinforcement: Thermo-adhesive material applied between the upper and the lining.

Heel reinforcement: Leather substitute inserted between the upper and lining at the rear.

Fastening: 9 pairs of metal eyelets, sturdy laces, and a central zipper.

Outsole: Antistatic, heat-resistant, oil-resistant, wear-resistant, and slip-resistant rubber.

Slip Resistance: Compliant with UNI EN ISO 20347:2024 SR requirements.

Energy Absorption: Heel area absorption exceeding 20 Joules (UNI EN ISO 20344:2024).

Insock: Removable anatomical footbed with a polyurethane base coupled with anti-abrasion fabric, perforated for enhanced breathability.

Construction: The footwear is stitched with high-resistance threads and assembled using "AGO" (cemented) construction.
