

SPECIFICATION SHEET

Item nr. 46416

Available sizes : from 35 to 43

CE Mark: 
UNI EN ISO 20347:2012 O2 HRO FO SRC

Item description: Women's footwear, ankle boot model featuring an inner side zipper and a leather-covered elastic insert on the outer side, equipped with the Klimacomfort air-exchange system.

Packaging, storage, maintenance and life: It is important to keep the product clean at all times and treat it regularly with non-aggressive products. Store the footwear dry and clean in a suitable place at room temperature, away from heat sources. Each pair of footwear is packed in an individual cardboard box, accompanied by an instruction sheet and an informative note on the protection features.

MADE IN ITALY

Components:

Upper: Water-repellent, soft, and breathable full-grain bovine leather upper.

Lining: Soft and breathable full-grain calfskin leather lining.

Insole: Antistatic fiber insole with high sweat absorption and desorption capacity, featuring forefoot perforations to enable the air-exchange system.

Sole: Antistatic, slip-resistant, wear-resistant, oil-resistant, and heat-resistant rubber sole; lightweight and flexible, featuring the KLIMACOMFORT device which ensures effective air exchange inside the footwear, especially in critical areas under the ball of the foot and near the toe where sweat accumulates most

Slip resistance: Compliant with UNI EN ISO 20347:2024, SR requirement.

Energy absorption: Heel area energy absorption exceeding 20 Joules, according to UNI EN ISO 20344:2012.

Cemented construction (AGO): Upper, lining, and insole attached to the sole using high-adhesion, non-toxic adhesives.

Supplementary requirements:

A: Anti-static properties

E: Energy absorption of the seat region

WRU: Water resistant upper

HRO: Heat resistant outsole

FO: Fuel-oil resistant outsole

SRC: Slip resistance
