Model description: Low-cut women's shoe, lace-up style, fastened with 6 pairs of eyelets and durable laces.

Information on use and maintenance: It is important to keep the product clean at all times and to treat it regularly with non-aggressive cleaning products. Store the footwear dry and clean in a suitable place at room temperature, away from heat sources. Each pair of shoes is packed in an individual cardboard box and includes an instruction leaflet with information on use and protective features.

Components:

Upper: Water-repellent full-grain cowhide leather, soft and breathable, with black Cordura inserts that are highly tear-resistant, abrasion-resistant, and water-repellent.

Lining: 100% polyamide fabric, treated with a silver-ion solution, providing natural antibacterial properties and high breathability.

Insole (midsole board): Antistatic fiber insole with high sweat absorption and moisture-wicking capacity.

Outsole: Polyurethane sole, antistatic, slip-resistant, abrasion-resistant, oil-resistant, lightweight, and flexible.

Slip resistance: Compliant with UNI EN ISO 20347:2022.

Energy absorption: Heel energy absorption greater than 20 Joules, compliant with UNI EN ISO 20344:2012.

Footbed: Removable anatomical GOODFLEX insole.

AGO construction: Method of bonding the upper, lining, and insole to the sole using high-adhesion, non-toxic adhesives.
